

WE **FIXED THE FORMULA**, NOW IS THE TIME TO **FUND IT**

Illinois schools need **\$400 million** into the formula.

WHY?

\$350 million puts schools on a path to equity & adequacy

\$50 million goes to tax property relief

TELL YOUR LEGISLATOR

- ✓ Illinois must continue to invest in our kids – our most precious resource.
- ✓ Investing in our school funding formula not only impacts our kids, but also their classrooms and the whole community.
- ✓ Most students are still attending underfunded schools—schools need an investment of \$400,000 to begin closing the funding gap.
- ✓ If \$400,000 million is not allocated to K-12 education this year, funding to certain districts will be cut.
- ✓ The \$50 million goes to property tax relief for districts that are overtaxed—this helps reduce the state's overall tax burden.
